17 Years of experience

Professional Bio:

Fisseha Moges, MPH, PMP®, is a public health leader and certified project manager with more than 17 years of experience advancing maternal, newborn, child, adolescent, and youth health across Africa. Until recently, he worked as a Project Management Specialist at USAID Ethiopia, where he managed a $124M family planning and maternal health portfolio, introduced innovations such as postpartum hemorrhage bundles and point-of-care ultrasound, and contributed to multi-country initiatives like PROPEL.

Prior to USAID, Fisseha served as National Program Management Advisor at Pathfinder International, providing strategic direction and operational leadership for over seven years. He spearheaded large-scale health innovations, led a $30M sub-granting program, and strengthened partnerships with government and donors. His earlier experience includes program leadership roles at the Family

Skills & Expertise:

Program/Project Management; Grants Management; Policy Development; Localization / Capacity Strengthening; Global Health; Proposal Writing; Monitoring, Evaluation, and Learning (MEL); Strategic Planning; Stakeholder Engagement

Sectors of Work:

Public Health; Technology & Innovation; International Development; Climate & Environment

Languages Spoken:

English, Amharic

Guidance Association of Ethiopia and academic service as Lecturer and Academic Dean at Ethio International Medical College.

Recognized as results-driven and collaborative, Fisseha combines technical expertise in health systems strengthening, project design, and monitoring with proven leadership in managing complex donor-funded programs. He is fluent in Amharic and English and remains committed to building stronger health systems and achieving sustainable health outcomes.
